Reference Letter | Mr Nicos Stephou

To whom this may concern,

This is a reference letter for graphic designer Nicos Stephou in support of his application for the position of Graphic Designer for RISE and RISE Makerspace.

I have collaborated with Mr Stephou in the Interreg Balkan-Med project Phygital of which I am the University of Nicosia Research Foundation coordinator, within the context of which a makerspace has been developed for Lakatamia Municipality. Mr Stephou was responsible for the development of the visual identity and all the design work of a major output of this maker space project, the exhibition and parallel public events programme Sickie & Code. In addition I am collaborating with him for the UI-UX realisation of a mobile application with a historical-geographical learning scope, which is funded by Harokopeio University and Sylvia Ioannou Foundation.

Having collaborated with Mr Stephou as a designer for both the Makerspace project in Lakatamia and in the formation of the mobile application I can confirm that he would make an excellent graphic designer within the context of the RISE Maker space and RISE more generally. In the context of our collaboration he has been responsible for the creation of the branding of our projects (logos and visual identity) and the design of posters, leaflets, infographics, booklets and mobile applications.

He is a committed and diligent in the development of his work, as well as a good communicator with a team spirit. In the time I have known him both in my capacity as the UNRF Phygital Maker space project coordinator and as the coordinator of the historical-geographical learning application he has proven to be very organized, conscientious, hard working, sociable and able to manage his workload and time effectively and efficiently.

Based on my professional relationship with Mr Stephou I strongly believe that his design style would enhance the activities of the RISE Maker space and that he would make an excellent addition to your team.

Yours sincerely,
Dr Evanthia Tselika
